## Popular Product Selections

### Description of Products

**BREAKTHROUGH** is a premium mild dry enzyme detergent. Pioneer in elevating mild detergency to new high level! For use in shirt laundries for extraordinary soil and stain removal, brightness & whiteness and minimum rejects.

**SPEC-TAK** is a superior dry enzyme bleach detergent. Achieves the whitest whites and stain-free quality. Unsurpassed in results. Wonder detergent for dry cleaner and shirt laundry operations!

**FLO-CREST** is a neutral liquid bleach detergent. Proved superior soil and stain removal. A special combination of detergents and safe bleaching action.

**NEW-SOL** is a specialty liquid detergent with superb solvent properties. Unsurpassed range of effectiveness on a wide variety of soils and stains.

**LIQUID SOUR BRIGHT** is a liquid sour specifically designed for shirt laundries in relative high bicarbonate areas. Protects against damage caused by most sours due to bleeding of reactive dyes.

**PROTECT** is a dry highly buffered shirt sour. Specifically designed to protect against damaging effects of reactive dyes.

**STABILIZE** is a highly buffered liquid sour. Protects against rust and over-souring of designer shirts with reactive dyes.

**NEW LIFE** is an innovative dry instant starch. Highly dispersible under a variety of conditions. Ideal for shirt laundries. Considerably less dense than most starches.

**POWER SIZE** is a premium instant dry starch. Specifically formulated for maximum stiffness on cotton and cotton/polyester blends.

**PRESTO!** is a widely recognized instant pre-cooked starch. Consistent stiffness with built-in lubricant. Readily dispersible under most starching conditions.

**SURE-SIZE** is a PVA sizing recommended for polyester and cotton/polyester blends. For use on shirts, jeans, trousers and other items which require stiffness with added appeal. Strips readily in subsequent washes.

*For specific usage instructions*, please contact your local U.N.X. Territory Manager. After a comprehensive survey of your operation, a customized procedure will be developed.
