

**SECTION 1: Identification**

**Product identifier:** Rise

**Other means of identification:** Manual liquid detergent

**SDS number:** 1405

**Recommended use:** Dishwashing detergent

**Recommended restrictions:** Not for personal care

**Manufacturer/Importer/Supplier/Distributor information**

**Company name:** U.N.X. Incorporated

**Address:** 707 Arlington Blvd  
Greenville, NC 27858

**Telephone:** Office hour (Mon-Fri)  
8:00a.m. – 4:00p.m. (Eastern Time)  
OFFICE NUMBER: 252-756-8616

**E-mail:** unx@unxinc.com

**Emergency phone number:** CHEMTEL (800) 255-3924 (24 HOURS)

**SECTION 2: Hazard(s) identification**

**Classification of the substance or mixture:**

**Physical hazards** Not classified

**Health hazards**

Acute toxicity, Oral: Category 4

Skin corrosion/irritation: Category 3

Serious eye damage/eye irritation: Category 2

**Label elements:**

**Signal word:** Warning

**Hazard statements**

H302 Harmful if swallowed.

H316 Causes mild skin irritation.

H319 Causes serious eye irritation.

**SECTION 2: Hazard(s) identification (continued)****Precautionary statements****Prevention**

- P101 If medical advice is needed, have product container or label at hand.  
 P102 Keep out of reach of children.  
 P103 Read label before use.  
 P264 Wash hands, arms, face and exposed skin thoroughly after handling.  
 P270 Do not eat, drink or smoke when using this products.  
 P273 Avoid release to the environment.  
 P280 Wear protective gloves / protective clothing / eye protection / face protection.

**Response:**

- P301+312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.  
 P302+352 IF ON SKIN: Wash with plenty of water for at least 15 minutes.  
 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 P332+P313 If skin irritation occurs: Get medical advice/attention.  
 P337+P313 If eye irritation persists: Get medical advice/attention.  
 P362+P364 Take off contaminated clothing and wash it before reuse.

**Storage:**

- P405 Store locked up.

**Disposal:**

- P501 Dispose of contents / container in accordance with local / regional / national / international Regulations.

**Hazard(s) not otherwise**

**Classified (HNOC)** Not classified

**SECTION 3: Composition/information on ingredients****Substance / Mixtures**

Chemical name	CAS Number	Concentration (%)
Water	7732-18-5	55-75
Dodecyl benzene sodium sulfonate	2555-30-0	10-20
Sodium laureth (n =>3) sulfate	9004-82-4	5-15
Propylene Glycol	57-55-6	0-5

## SECTION 4: First-aid measures

### Non-emergency personnel

**General advice:** safely remove victims from the danger zone. Provide emergency services with this safety data sheet.

**Eye contact:** rinse with plenty of water for at least 15 minutes. If irritation persists, get medical attention.

**Skin contact:** rinse with plenty of water.

**Ingestion:** rinse mouth with plenty of water, do not induce vomiting. Get medical attention if symptoms occur.

**Inhalation:** bring victim out to fresh air. If the person is unconscious or symptoms occur, get medical attention immediately.

### Emergency personnel

**Personal Protection:** refer to Section 8 for specific personal protective equipment

**Notes to physician:** the concentration and length of exposure impacts the severity of the symptoms.

### **Most important symptoms/effects, acute and delayed:**

Refer to Section 2 for hazards and Section 11 for information on health effects and symptoms. Treat symptomatically.

**Indication of immediate medical attention and special treatment needed, if necessary:** provide general supportive measures. Eye contact, inhalation, and ingestion cases should be treated immediately. Have procedures and facilities in place to treat these cases of exposure.

## SECTION 5: Fire-fighting measures

**Suitable extinguishing media:** use water or foam at the source of the fire. Foam is preferred as water may cause the corrosive product to splatter. Water spray on large fires may be ineffective but may be used to keep fire-exposed containers cool.

**Unsuitable extinguishing media:** do not use a water jet as this can spread the fire. Do not use carbon dioxide in enclosed spaces with insufficient ventilation.

**Specific hazards arising from the chemical:** burning releases oxygen, sodium ions, silicic acid and oxides of phosphorus/sodium. Do not breathe in the fumes caused by the fire. Move container of the product that are not exposed to the fire if able to do so safely. Containers can melt from the heat and the combustible material may provide fuel to the fire. Withdraw immediately in cases of rising sound from venting safety device or discoloration of tanks. For massive fire in cargo, use unmanned hose holder or monitor nozzles. If not, withdraw and let fire burn out.

**Special protective equipment for fire fighters:** wear full protective airtight garment and NIOSH approved self-contained breathing apparatus with independent air-supply. Fight the fire in early stages if safe to do so. Provide sufficient ventilation and be aware of hydrogen generation upon reactions with some metals. Do not allow contaminated extinguishing water to enter the soil, ground-water or surface waters.

## SECTION 6: Accidental release measures

**Personal precautions, protective equipment and emergency procedures:** ventilate and restrict access to the area of leak or spill. Have emergency procedures in place for treating incidents, evacuation and informing the emergency services. Refer to Section 8 for personal protective equipment.

**Environment precautions:** clean up spills/leaks immediately and prevent it from spreading. Large or uncontrolled spills to water systems must be reported to appropriate regulatory body.

**Methods and materials for containment and cleaning up:** absorb spills with non-combustible absorbent. Dam and absorb with sand, earth or other inert material for large spills/leaks. Collect spillage in containers with labeled contents and dispose according to local regulations. Flush the contaminated area with lots of water.

## SECTION 7: Handling and storage

**Precautions for safe handling:** Refer to Section 8 for personal protective equipment. Do not eat, drink or smoke when handling the product. Avoid skin and eye contact. Follow general hygiene routines after working with the product. When handling large amounts of the product, be sure to have a safety shower nearby.

**Conditions for safe storage:** store in a suitable, closed and labeled container upright at temperature between 40°F and 100°F in a well-ventilated area. Opened containers must be properly resealed to avoid spillage. Store away from heat, direct sunlight and moisture. It is preferred to keep the container on sump pallets. Store in high-density polyethylene containers. See Section 10 for incompatible materials.

## SECTION 8: Exposure control/personal protection

**Control Parameters/ Occupational exposure limits: None**  
**Appropriate engineering controls/ventilation system:**

A general exhaust system is recommended to keep employee exposures below the limits. An additional local exhaust system is preferred in order to control emissions at its source.

### Personal Protective Equipment (PPE)

**Respiratory Protection:** A NIOSH approved full-face respirator with high efficiency dust/mist filter is recommended. For emergencies or when dealing with unknown exposure measures, use a full-face piece positive-pressure, air-supplied respirator fitted with a suitable cartridge for the chemical. Consult respirator supplier regarding the compatibility of the equipment. **CAUTION:** Air purifying respirators do not protect the user in oxygen deficient atmospheres, use an air supply system.

**Hand Protection:** impervious gloves, with suitable protection for workplace, are recommended any time the product is being handled. Consult glove supplier for details on suitability, breakthrough time and permeability. Frequent change of the glove is advisable. Be aware that latex gloves can trigger an allergic reaction to sensitive individuals.

**Eye Protection:** use chemical safety goggles and/or full-face shield when handling the product.

## SECTION 8: Exposure control/personal protection (Continued)

**Skin/Body Protection:** wear impervious protective clothing, boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact. Take additional precaution if handling amounts past the exposure limits.

**Thermal Hazard:** wear thermal protective clothing when necessary

**General Hygiene:** change out of clothes, thoroughly wash your hands and clothes, and shower/bathe as soon as possible. Do not eat, drink, smoke or use the bathroom while handling the product.

**Other Protective Measures:** have an eye wash and safety shower station close by. Routinely wash all equipment to remove contaminants.

## SECTION 9: Physical and chemical properties

**Appearance:** Liquid  
**Colour:** Blue liquid  
**Odour:** Fresh fragrance  
**Odour Threshold:** No data available  
**pH:**  $7 \pm 0.5$   
**Melting point/range:** No data available  
**Boiling point/range:** No data available  
**Flash point:** No data available  
**Evaporation rate:** No data available  
**Flammability (solid, gas):** No data available  
**Upper/lower flammability of explosive limits:** No data available  
**Vapour pressure (mm Hg):** No data available  
**Vapour density (Air=1):** No data available  
**Relative density:** No data available  
**Solubility(ies):** Excellent in warm water  
**Partition coefficient (n-octanol/water):** No data available  
**Auto-ignition temperature:** No data available  
**Decomposition temperature:** No data available  
**Viscosity, dynamic:** 125  
**Other Information:** This product contains no phosphates.

## SECTION 10: Stability and reactivity

**Reactivity:** No hazardous reactions are known under normal storage conditions and if handled according to standard industrial practices.

**Chemical Stability:** Stable if under normal storage conditions and handled according to standard industrial practices.

**Possibility of hazardous reactions:** Hazardous polymerization will not occur.

**Conditions to avoid:** No hazardous conditions are known.

**Incompatible materials:** None known based on provided information.

**Hazardous Decomposition Products:** None known based on provided information

## SECTION 11: Toxicological information

**Acute toxicity:** Toxicological testing has not been conducted with this material. The toxicology information listed below is based on the components of this material.

Category 4- Oral: Harmful if swallowed.

<b>Sodium laureth (n=&gt;3) sulfate</b>	
Acute Toxicity (Oral LD50) 1,600 mg/kg Rat	
<b>Propylene Glycol</b>	
Acute Toxicity (Oral LD50) 20,00-34,000 mg/kg Rat	Acute Toxicity (Skin LD50) >10,000 mg/kg Rabbits

**Skin Corrosion/ irritation:** Category 3: Causes mild skin irritation. Not known to be corrosive.

**Serious eye damage/irritation:** Category 2: Causes serious eye damage.

**Respiratory or skin sensitization:** No information available.

**Germ cell mutagenicity:** Classification not possible.

**Carcinogenicity:** Classification not possible.

**Reproductive toxicity:** Classification not possible.

**Specific Target Organ Toxicity - Single Exposure:** Classification not possible.

**Aspiration hazard:** Classification not possible.

## SECTION 12: Ecological information

**Toxicity:** Do not allow to escape into waterways, wastewater or soil. Ecotoxicological studies of the product are not available. Please find below the data available to us from raw materials:

**Aquatic ecotoxicity:**

<b>Propylene Glycol</b>		
Acute LC50 (Water Flea) (Daphnia Magna) 4,850-34,400 mg/L	Acute LC50: Rainbow trout (Oncorhynchus mykiss) About 44,000 mg/L	Acute LC50: Fathead minnow (Pimephales Promelas) 46,500-54,900 mg/L

**Persistence and degradability:** No data is available on the degradability of this product.

**Bioaccumulative potential:** No data available for this product. **Mobility in soil:** Not available.

**Other adverse effects:** No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

**SECTION 13: Disposal considerations**

**General Information:** Do not allow the product to contaminate any body of water. Refer to Section 8 for personal protection equipment.

**Disposal Methods:** Avoid unauthorized disposal. Do not dump into any body of water. Comply with federal, state/provincial and local laws/regulations. Do not reuse empty containers.

**SECTION 14: Transport information**

**UN Number:** Not Available  
**UN Proper Shipping Name:** Not Applicable  
**Transport hazard class(es):**  
    **DOT Hazard Class:** Not Available  
    **DOT Subsidiary Hazard Class:** Not Available  
**Packing group, if available:** Not Available  
**Environmental Hazards:** No  
**Special precautions for user:** Not DOT regulated.  
**Transport in bulk according to Annex II of MARPOL 73/78<sup>3</sup> and the IBC Code <sup>3</sup>:** Not applicable

**SECTION 15: Regulatory information**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**  
Unless otherwise noted, no components are SARA TITLE 3 SECTION 313 40 CFR listed materials.  
The ingredients of this product are listed on the TSCA inventory.  
This product is not made with VOC'S that could cause damage to the ozone layer.

**SECTION 16: Other information including date of preparation or last revision**

<b>Chemical State:</b> Liquid	Issue Date:	5-17-2019	0	Health
<b>Chemical Type:</b> Mixture	Revision Date:	-	0	Flammability
	Version #:	01	0	Physical Hazard
			A	Personal Protection
